FEEDBACK BY BILL SIMS

Inspiring.

best presenter yet! Very encouraging and inspiring!

I would recommend this to everyone. This is every educational.

This is really worth it

challenging

great presentation on leadership

Great speaker and content!

Outstanding perspective on impact of positive reinforcement.

very good session. it changed my outlook on how to approach safety culture with workers. very thought provoking.

I think all leaders should take this one

What a great class learned so much and hope he comes back

Best part was the blue ribbon. I have heard of the other parts before.

Bill had a lot of eye opening concepts that forces managers, supervisors, and employees to assess one's self, which can in turn benefit the whole.

Good presentation. Lively entertaining speaker.

like how used personal examples.

Great speaker. My only comment is that he said you can change culture in 10 seconds which sounds great but isn't possible. An example he gave in this presentation involved a process of culture change onboard a Navy Cruiser. This change occurred

great speaker, information very relevant and user friendly. easy to understand concepts.

excellent presentation. tons of great information

excellent everything

My favorite class! I am able to really apply some of the things I heard.

Excellent information, like the concepts actually spelled out. I currently employ several of the principles he lines out but learning the hard way isn't preferred if you have a resource like this one

Great message. Inspiring

good information

enjoyed the keynote and the class. can't wait to read the book

Best Keynote speaker yet!!!

It's great

Keynote speaker was very good, forward thinking in measurable management systems.

Good introduction to the up coming classes. Speakers were informative and educational. It is a pleasure to be here and pick up information that can be used on the job.

He hit on a lot of key points that struck home when it came to jobs hiding accidents from employers.

There was not enough room when I first tried to get in but I was signed up for the class. Maybe be able to show on tvs. That would be nice

all of the presentations were good, happy to see Lt. Gov. here in person and not video. Keynote speaker was good.

Excellent! Very well-paced and well-planned.

Good information; however, it was not new information.

great keynote speaker. looking forward to the class

Excellent keynote speaker. Great speech from the Lt. Gov.

Excellent opening presentation and a great motivating start to an hopefully even better conference.

The Lt. Governor was awesome!

good start today

Great

Great presentation

great open opening session. Nice to have the names of those killed on the job since the last conference read. Bill Sims' keynote was excellent. Thank you for bring him to Washington State. appreciated being able to get a copy of his book in the

Great opening ceremony, it was very sad to hear about all the fatalities but brings it to light how much we need to improve.

great opening

I was very impressed with the LT. Governor was amazing. The key address was also very informative and I enjoyed it very much.

This was my first time to attend this Event. I really enjoyed every part of the Opening Ceremony.
